Zagar Offers Gun Drilling Solutions Through Strategic Partnership with Precihole

Zagar Inc. has announced a new partnership with Precihole Machine Tool Ltd., naming Zagar as the exclusive importer for the complete line of Precihole deep hole drilling, honing, skiving and burnishing machines for North America. Zagar will also represent Precihole's extensive component design

and build sales program including gun barrels, hydraulic cylinders and bearing races, to name a few. Zagar's Cleveland facility will serve as the North American headquarters for Precihole providing service, support and training.

"Given our experience in drilling

MD Calibrations Announces Machine Tool Calibration Certification

MD Calibrations LLC, a New England firm specializing in machine tool calibration services and equipment, has been accredited to ISO 17025 and Z540.

In January, the management team committed to becoming accredited to ISO 17025 and Z540 by hiring Rita Roy, Quality Manager. This was to help ensure that MD Calibrations stayed competitive and cutting edge. Securing accreditation was Rita Roy's number one goal.

MTConnect Institute [MC]² Announced 2013 Conference

The MTConnect Institute formally announced [MC]² 2013 MTConnect: Connecting Manufacturing Conference that will be held in Cincinnati, OH, at the Hyatt Regency on April 10-11, 2013. According to a spokesperson, MTConnect is the communications and inter-connectivity standard that is allowing manufacturing shops and plants to save both time and money because, for the first time, they can easily retrieve and monitor data off the shop floor to improve productivity.

"[MC]² 2013 is the conference for
